3,000 Enjoyed City Firemen's July Fourth

The Grayling Fire Department's 80th anniversary celebration was the greatest yet in the past three years. From the beginning of the parade to the finish the route was led by over 3,000 people, well over 500 of whom were small children who received firemen's hats passed out by the four clowns and the department members. The department did not anticipate such a crowd as it had out of hats long before the finish of the parade.

The events that followed throughout the day were a huge success, with hundreds of children taking part in the activities. Over 300 children and adults tried for the only in the increased pole contest with the following being successful: Tim Mead, Grayling, \$10; Kenneth McDougall, Wayne, \$10; Bill LaMotte, Grayling, \$10; Chuck Bonamico, Grayling, \$10; Fred Moggo, Essexville, \$10; Dave VanArsdale, Flint, \$10; John Julian, Warren, \$10; Dale Lozon, Grayling, \$2.

The sack race was won by Kathy City, \$2; and Bobby Kelly, \$9 of Grayling. \$5 prizes each.

In the canoe race winners were Larry Melsa, \$13, Grayling, and Jay Kay Hunter, Grayling, \$12; and John Treston, Grand Rapids, \$10; and Sara Olson, Postoria, \$10; and Doug Papineau, Port Huron, \$12; and Brian Anderson, Port Huron, \$12; and Larry Stevenson, Grayling, \$15; and Alfred Edhauser, Grayling, \$14; \$5.

The team of Paul Mauren (15) and Louis Nielson (15) of Grayling were 53 steps apart before the race gave out to take all honors or the egg toss contest and win the \$5 prize.

The increased pole event was enhanced by donations of \$5 each from "Col. J. McGillicuddy" and Mrs. Lader.

The day was topped off by 40 minutes of fireworks viewed by an estimated crowd of over 8,000. By setting off the aerial display simultaneously with the ground display the department set off more fireworks this year but in less time, for a more interesting display. The streets danced a large crowd this year, with such a large number of teenagers turning out that plans for next year are being made to have two different dances, one strictly for the younger set.

Grayling Fire Department wishes to take this opportunity to thank everyone who helped to make this day such a success. The two organizations deserving thanks above all are the Grayling Moose Lodge and the City Police Department without whose assistance it would be beyond the Fire Department's ability. Chief Kip Papenick stated to carry in this full day's celebration.

REPORT OF SCHOOL FINANCING

At a special election to be held on August 2nd when a permanent Finance Board of trustees will be chosen for the newly formed Crawford County School District (formerly Crawford and Frederic School Districts) the electors will also be asked to vote for 5 mills for operation of the schools. This is not a raise in taxes for the former Grayling District but merely a re-voting of a tax which was already in force until the merger took place. It is a raise of one mill in the former Frederic District as only ten mills was being levied before the merger. We have been asked why if Frederic only needed four mills before that five is needed now. Former Supt. of the Frederic Schools, Bruce Billeter informs us that if the merger had not passed the Frederic School Board would also have been forced to ask for about a mill for operation in order to balance their budget.

The proposed budget for the 1966-67 school year in the combined districts is as follows:

Number of students anticipated 128.

High School Enrollment 522.

Local Property Tax 6.03 mills allocated on \$18,760,384 valuation

5 mills to be voted upon State Aid for 1226 students @ \$278.00 per student \$340,828

Less 1.63 mills on \$18,760,384 94,093

Net State Aid 246,735

Transportation expense reimbursed by the state 15,000

Driver Ed expense reimbursed by the state 2,000

Supplies, room and non-revenue receipts 3,000

Federal & State payment in lieu of taxes on state and federally owned properties within the district 27,500

TOTAL ESTIMATED RECEIPTS 502,565

Estimated Expenditures:

Administration \$369,022

Health Services 26,250

Health Services (Vision & Hearing Testing) 500

Transportation 28,000

Operation of buildings (includes all utilities) 55,200

City Water Troubles Still Continue

Grayling City Manager Harold S. Cliff said early this week that the city was still plagued with its water troubles. One of the City's large wells suddenly dropped production and it is difficult to hold water pressure.

A well expert has been called upon and is due in Grayling later this week, Manager Cliff said. He may be able to determine the exact cause whether it be a lowering water table, sanding up of the well point or what. If the trouble can be determined, corrective measures will be taken this weekend.

City Manager Cliff said he has received several complaints from citizens who have been requested to halt watering their lawns who point out that the Grayling Country Club was using sprinklers on most all of their fairways and greens. He pointed out that the club was doing the watering direct from the Ausable River and were using their own pumps to pull the water from the river.

GOOD NEWS FOR MUSIC LOVERS

Howard Taylor, high school music director, has informed the Avalanche that contracts have been signed allowing him to stage "My Fair Lady" next year.

Tentative dates for the presentation are May 19 and 20th. However if advance ticket sales indicate a need, three performances may be given.

We are certain that all who attended this year's "Brigadoon" will be looking forward to next year's musical.

NOTICE

The Sheriff's Office will be closed for issuance of driver's licenses all day Saturdays from now on.

"Buckeye" Guard Alert For Forest Fires

CAMP GRAYLING — Ohio's National Guardsmen are cooperating with the order issued by Michigan's Governor Romney banning campfires and smoking in the tinder-dry forest areas around Camp Grayling.

Commanders have set up specific smoking areas in clearings around the training areas for their men. They have banned the use of open campfires, though it is doubtful any would have been built anyway.

Units firing weapons into impact areas north of Grayling have been instructed to keep experienced fire-fighting men at the ready to put out any possible fires. It was pointed out that the impact areas — uninhabited — are bounded by large fire lanes on all sides.

The Division Artillery has one unit on alert at all times, ready to fight any fire that might break out in the Bear Lake area. This is standard operating procedure with the division.

Forest Fires Still Plague County

Conservation Department fire fighting equipment was dispatched to assist the National Guard on three fires in the military area Saturday, July 2nd, recurrences of previous blazes during the week. At 1:30 p. m. July 2 a fire was reported a quarter mile north of M-72 about 1/4 mile west of Stepan Bridge Road in Section 7, T26N R2W, which burned about two-tenths of an acre. This was handled by a pumper-pole from Grayling and a pumper unit from the Forest Service area which was on patrol in that area.

Last Thursday, Fire Officer Forrest Amis was notified at 11:50 a. m. by the Down River Tower of four separate fires along the railroad right of way in the Pere Chey area, set over about six miles of track between Barber-Crossing at Seven Mile Road and the Four Mile Road. The fires were confined to the right of way by equipment from Grayling and Roscommon, burning an estimated total of 2 1/2 acres. The fourth fire was also reported by a passing motorist to the County Garage which relayed it to the department. These fires were from burning carbon from the northbound train.

On Friday a muck fire in Sec. 7 T28 R4 along the Manistee River was reported by a fisherman, who stopped its spread into grass when he found it. The fire had spread from a campfire started some time before the emergency restrictions went into effect, and had smoldered unnoticed until it burned about a tenth of an acre. Two units pumped water for two days to extinguish the burning muck.

Until 1929 they operated a farm in Maple Forest, moving to Grayling then to make their home on Mikado Street. Mr. Hunter passed away July 4, 1955.

Mr. and Mrs. Harry Canfield of Maple Forest announce the engagement of their daughter Norcen Joann to James R. Failing of Grayling.

Review Saturday Morning

CAMP GRAYLING — Aggressor ambushes, guerrilla infiltration and intelligence training are much more in evidence this year than in any recent year as Ohio's 37th Infantry Division winds up the first week of summer field training here.

The wars in Korea and Viet Nam have shown the importance of training U. S. servicemen in the techniques of both conducting these type problems and in combating them.

In addition to the National Guard division's own Intelligence Section, attached to aid with the increased emphasis on intelligence is the 25-man 342nd Military Intelligence Detachment of the Army Reserve, based in Cleveland.

During this first week, the detachment is staging the aggressor "incidents" with the division personnel. Next week, it will conduct an Intelligence School for members of the division.

Each major unit is required to

conduct a minimum of 20 incidents during the two-week encampment. These can come as the units line up for "chow" in the Lake Margrethe area, as they march along the road to a training area or during a training problem just as they might in an actual combat situation.

Sometimes, planes fly low overhead firing simulated rounds, dropping napalm or bombs—in the form of flour bags.

In some cases, guerrilla infiltration

tors will move into a unit's bivouac area, leaving indications by "a calling card" that certain key pieces of equipment could have been destroyed or booby-trapped had it been a combat situation.

Stress has been placed in the training of each man on counter guerrilla and counter insurgency methods, including a course for most in techniques of infiltration.

While important, the intelligence training is just a small phase of the training here.

Some 6,000 men in 98 units from 66 home stations around Ohio are concentrating on small, basic unit training—squads (11 men) and platoons (44 men). There are NO widespread major unit maneuvers planned.

By the time the division leaves Camp Grayling Saturday, July 23, the men will have fired every weapon on organic to an infantry division from the .45 caliber pistol on up, except the Honest John Rocket.

The division is noticeably smaller this year, having lost its 3rd Brigade.

A highlight of the 37th Ohio Division's training at Camp Grayling will be the annual Governor's Review Saturday morning, July 16, at 10 a. m.

The public is invited to attend — on the parade field at Camp Grayling.

All 6,000 men of the division and 185 Army Reservists attached for training will parade in review before Ohio Governor James A. Rhodes, several other state officials, Major General Wilbur H. Fricke, the division commander, and a host of other Ohio and Michigan military officials.

This will be the fourth straight year Governor Rhodes has reviewed the Ohioans.

gated to the high-priority Select Reserve Force. That brigade and certain aviation units formerly in the division trained earlier this summer.

In event of activation, they would become part of Pennsylvania's 28th Division.

The 37th is of a lower priority, but the tense world situation has given this camp an added air of seriousness.

The trip here from Ohio was made in 1,350 military vehicles — a few hundred civilian cars, almost all accident-free. The only mishap was a \$30 property damage accident near Delaware, Ohio.

Each phase of training is being rated by regular Army evaluators. The division has a tough goal to shoot at to top last year when more than 75 per cent of the 8,100 individual ratings units received were superior (highest possible).

Jimmy Alef was able to return home Sunday from the hospital. He had suffered a badly burned right hand when a firecracker exploded while he was holding it, during the holiday weekend.

Kalkaska Sues Minnie Pearl For \$100,000

Court action was started July 7th in Kalkaska County Circuit Court by the Kalkaska Trout Festival Association against Minnie Pearl. Suit was filed by the Trout Festival's Attorney, Edward W. TenHouten, of Cadillac.

The action results from the failure of Minnie Pearl, well known star of the Grand Old Opera, to appear for an engagement of the National Trout Festival in Kalkaska on April 30th of this year.

TenHouten stated that this was a clear breach of contract and that the Trout Festival's reputation and public image has been seriously damaged. It is feared that this may result in loss of attendance at future festivals.

Suit was started for \$100,000.00.

All this glory from one tiny seed! The sunflower towers taller than a man, its huge golden head filled with thousands of seeds... and every seed contains the mystery of life and growth that science cannot explain.

We are surrounded by miracles that man did not create. Who created them? Who created us? By the reasoning powers of our own marvelous minds we can be guided to see that God the Creator has made all things according to His plan, and that we can only achieve our highest development by living in harmony with it.

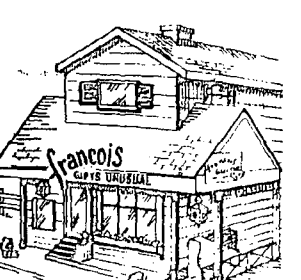

How can we know God's will for us? We need only a small seed of faith, for He will lead us in His way if we ask Him... and that seed will grow and flourish under His loving care.

Mincemeat Dollars?

Much like children, seeking to avoid unpleasant facts, many government officials have been turning their backs on the signs of inflation that have appeared recent months. We have been told there is no real danger. Everything is under control and these are just temporary dislocations. Or, it is pointed out, wage increases have generally exceeded price increases. But, it disregards the predicament of those who can't increase their incomes—old people on pensions and welfare, the unemployable, those with little training, etc. we hear perhaps that the picture will be brighter next month or the month after.

Vell, these avoidances and desperate hopes have lost their value if they ever had any. Last February's price rise was the steepest for the month in 15 years—and sharp rise continues. No one any longer denies that the forces behind inflation grow stronger day by day. Labor's demands seem to have almost no ceiling, and the government's 3.2 per cent "noninflationary" guideline for wage increases has become a joke.

The possibility that we will soon have tax increases fast becoming a probability. As much as \$5 billion may thus be taken out of circulation in an attempt to stem the tide. But there has been a curious reluctance on the part of those in power to cut back, in even moderate degree, the enormous and unprecedented welfare programs that could run the budget deficits to undreamed-of levels and make mincemeat of the dollars remaining worth.

More and more voices are stating that cutbacks of this nature should precede tax increases or at least accompany them. They are right.

recreation areas are being set aside for public use. Power lines are going underground. Wayside parks and rest areas multiply along the highways.

From an aircraft far above the ground, lakes and mountains leave an impression of an indestructible playground laced with access roads, resorts and campgrounds. But, when seen at close range, the realization comes that natural beauty is highly fragile and cannot be saved except with the cooperation of the people—you and I.

If you do not believe this, take a look at the broken bottles on swimming beaches, the jagged beer cans, paper plates, in short the monumental piles of offal left by irresponsible multitudes of people. Do you know what natural beauty is? If you do, you will think twice before you ever again throw even a gum wrapper out of your car while driving along the highway.

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

July 15, 1920

Chris Hoelsi is home for a few days, coming here with his son Clarence who is ill. Chris and his son are employed on the J. P. Morgan ore freighter plying the Great Lakes. On the same boat are other Grayling men—Fred Bishaw, steward; Floyd Lovely, second cook; Bud Wiseman, watchman; Charlie Gierke, son of Lloyd, and Clarence Hoelsi, porters. Chris says he is a deck hand. They get up at 5:30 every morning, have breakfast at 6, dinner at 12 and supper at 6. They work eight hours each day. Most of their ore comes from Minnesota and is carried to Chicago, Cleveland and other cities. The round trips are made on an average of one week.

Edward Dreier, famous outdoor motion picture photographer, has been taking color photographs of the South Branch (AuSable) river for display at information centers of the East Michigan Tourist association. The annual budget was read. The percentum allowed this school district was four mills. The election of one trustee followed. George Schable was nominated. There being only one nomination a motion was made to cast a unanimous ballot. Motion carried. ry of Owosso, Mr. and Mrs. Cor-

Margaret Griffith attended the

know just how much the township
keives from their tax dollar?

Frank DeWitt is asking for a rpl

BITS O' TALK

Mrs. Clarence Papendick would
like to thank the young man who
pulled her son, 6-year old Perry,
to safety last Saturday when he hit
a deeper spot in Lake Margrethe
than he could handle and called for
help. He had been jumping off the
lake dock at the lower end of the
lake into shallow water, his moth-
er close by with their two-year old
Perry's rescuer, a youngster ar-
ound twelve, grabbed him and
brought him to shore. Mrs. Pap-
endick never did learn who he was,
but the family is mighty grateful.

The Ray Ellises and son Rayme
of Sandusky spent the weekend
with Mrs. Ellis' parents the Ray
Carricks on Wakeley Road. They
helped to celebrate Mr. and Mrs.
Carrick's birthdays.

Mr. and Mrs. Tom Douglas and
children and Mrs. Charles Moore
vacationed at Big Bay deVos July
4th weekend and were guests of
the William Averys. Tom reports
the best fishing ever.

Mrs. Hilda Blaine was hospital-
ized in Pontiac July 4th as the re-
sult of a heart condition due to an
attack of asthma, and is in Room
427A, Pontiac General Hospital,
Pontiac, Mich. Her daughter Mrs.
Gerald Korhonen and daughter
Karen left Tuesday to visit her
again, planning to spend several
days. The family had been to see
her last week immediately after
she became ill.

Visiting Mr. and Mrs. Earl Long-
worth on Monday were Mrs. Long-
worth's mother, Mrs. Charles J.

Cold Lemonade A Real "Quencher"

A resourceful truck driver for the Borden's Milk Company may have saved the day for the Mio Ranger District of the Huron National Forest. On July 2, the driver, Edward Kauffman of Fairview, spotted a grass fire on M-33 south of Mio. Thinking quickly, Kauffman grabbed a case of cold lemonade and made a frontal assault on the flames. With this exotic extinguisher, the aid of some passing motorists, Kauffman kept the fire out of the timber and confined it to the highway right-of-way. His quick action undoubtedly averted a disastrous forest fire.

The fire was started by a firecracker thrown from a passing car.

High Price Paid for Federal Aid Here

NEW YORK — Taxpayers in Crawford County are paying a high price for the benefits their area receives under the various Federal aid programs.

Out of every dollar in aid received from Washington—for public housing, welfare, education, hospitals, roads, urban development and the like—the cost to them is \$1.38.

That is how much they have been contributing toward the aid programs through their income and excise taxes.

And this does not include the amount the community has had to put up in the form of matching funds for local projects.

The findings are based on a state-by-state examination of Federal grants-in-aid made during the past fiscal year. It was conducted by the Tax Foundation, a non-profit organization whose purpose is to serve as a watchdog on public spending and taxation.

Its study shows that residents of 18 states paid more in Federal taxes toward the aid programs than they received in aid. Those in the other 32 states got back more than they put in.

In the State of Michigan as a whole, approximately \$481,300,000 of the Federal taxes collected went into the aid programs and \$354,600,000 came back in grants.

A breakdown indicates that Crawford County residents contributed \$213,000 of this total and that its share of grants was approximately \$156,000.

There is no attempt on the part of the government to provide Federal aid on a dollar-for-dollar basis. The money is allocated according to need and to desirability from an overall standpoint, it is explained.

The scope of the aid programs has expanded rapidly in recent years. There are now several hundred programs in operation, with a budget of \$14.6 billion for fiscal 1967.

Senator Robert F. Kennedy, in a speech last month, urged communities to become more familiar with the benefits available under these programs.

He pointed out that many localities were passing up chances to tap these Federal funds because they were unaware of what was being offered and in some instances, because they didn't bring enough "initiative and ingenuity" to bear.

DAVE ENGLUND IN "TIGER COMPANY"

New recruits are sworn into the Navy at a ceremony at Tiger Stadium with this year's festivities scheduled for the Detroit-Baltimore game July 14. All 110 men in the company will see the game and then travel by chartered bus to Great Lakes, Ill., where they will remain as Tiger Company for nine weeks of basic training.

Dave Englund, son of the Carl Englund of Grayling, is a member of a little known Navy boot camp company with the official designation of "Tiger Company". Dave left the first of the week to begin his training, after having placed second high in an aptitude test among 110 recruits.

An Easy Way To Clean Up River

Here's an easy way to clean up the river, thanks to Arthur E. Pond, now a trailer traveler but a frequent visitor to Grayling some years ago. He and his family spent many weekends or summers at Lake Margrethe. Last week he visited the George W. Mumfords at their three-season home east of town. While there, Art Pond fitted a bushel basket into an old inner tube to which he tied a rope. Wading the river in tennis shoes and pulling his "Ausable" junk, he dug out two bushel basketsful of debris. Mostly beer cans. And one old shoe.

Letters To The Editor

To The Editors
Dear Sir,
I was asked to write you my impressions at the beginning of my stay here in Mexico.
Mexico is really a very beautiful city. Although it is a very large city, there is no smog and you do not notice the factories. I find it is comparatively quiet here. There are many parks that are very lovely, especially Chapultepec Park.
I live in an older section of the city. The homes here are very large and beautiful and very typically Spanish. The houses are all very close together, but all are surrounded by very high walls, so there is no noise. All I can hear from my home are birds and the bells in the convent next door. There is a complete absence of the summer noises you are used to hearing, such as lawn mowers, children playing etc.
My family consists of: Jose Kuri Brena-father (Director of the Bank of Commerce); Carmen, mother (devotes herself to home and family); Jose (Pepe), 23 (works for an American industry); Maria, 18 (will start college this fall); Monica, 16 (senior in high school); Rocio, 12 (school).
My family has traveled extensively in the U. S. A., Europe and the Orient. Their home is very lovely and they have been very nice to me. The whole family is very talented both in art and music. One thing that is different here is the driving. The word to describe it is wild. There appear to be no rules, everyone improvises, especially the bus drivers. They know no fear. Being a pedestrian is just as terrifying as being a passenger.
It is very formal here, in clothing, mannerisms, in life in general.
I will write again near the end of my stay here. That is, if I don't get run over by a bus first.
Sincerely, Lynn
P. S. I miss the "good 'ole U. S. A."
